

Dear Freshmen,

welcome to your new school. In the upcoming months you will start getting ready for your new life and studies at our university.

We in FSA (foreign student association) will be there to support you in any possible way.

FSA is one of the main powers behind the social life of the faculty students.

FSA can support you by the many activities that we have, some of them are connected to having fun and having a good time in the Campus and Budapest, and some help the students with any problems with school. FSA have a seat in the school's Senate which give us, the students to influence the way the school is run. We also sell used books to the new students.

Some of our activities in the last semester:

holding movie nights in a lecture hall every week of the semester.

rock concert in the Campus club.

a musical evening, where students play and sing for other students and teacher.

international day.

representing the international student's interests in the Senate.

selling books.

This semester FSA is going to start with some new benefits for the students!!!

FSA recommends all new students not to get a mobile phone by your selves. FSA have an agreement with a local company to give us mobile phone services.

The deal is spatially for students and provides many benefits.

One min' in a regular phone number cost 40 forint with FSA phone its 13 forint

100 free sms and the rest for half the regular price.

If you call a number from a FSA phone to FSA phone you don't need to pay at all!!! you don't pay for calling your friends!!!

As well we will sell stickers of the FSA that will give you discount in many of the city businesses.

You can get back to us with any Qs you have by our mail fsa.vet.hu@gmail.com or at our website: <http://www.pirosvilla.info/fsa/Welcome.html>

Hope this was not to much for you.

Hope to see you all next semester.

FSA president

Omer Kertes
