

Scapula

lat.

Spina scapulae

Fossa supra- / infraspinata (*interspec. diff.: ratio*)

Acromion (? , *interspec. diff.*)

Proc. hamatus, -suprahamatus (*fe*)

med.

Fossa subscapularis

Facies serrata (M. serratus ventr.)

Proc. coracoideus (M. coracobrachialis)

Margo cran., caud. + dors.

Angulus cran., caud. + dist.

Tuberositas supraglenoidale (M. biceps brachii)

Cavitas glenoidalis

lat/med, L/R?

- Spina scapulae
- Proc. coracoideus
- Fossa supra- / infraspinata
- Tub. supraglenoidale

Humerus

Caput humeri

Tuberculum majus (lat.!) + minus (med.) (*interspec. diff.*) + Cristae

Collum humeri

Linea musculi tricipitis (lat.) (M. triceps brachii, Caput lat.)

Tuberositas teres major (med.!) + minor (lat.) (M. teres major + minor)

Tuberositas deltoidea (lat.)

Crista humeri

Sulcus musculi brachialis (prox. – dist.: caud. / lat. / cran.)

Fossa radialis (cran.) + Fossa olecrani (caud.)

Condylus humeri, Epicondylus, Crista epicondyli

lat/med, L/R?

- Tuberculum majus / Tuberositas deltoidea
- Fossa olecrani

Radius / Ulna

Caput – Radius: prox., Ulna: dist.

Proc. coronoideus (Radius 1x, Ulna 2x)

Tuberositas radii (craniomed.) (M. biceps brachii, M. brachialis)

Planum cutaneum radii

Sulcus tendinis (cran., med.: M. abductor dig. I. longus)

Crista transversa (caud, dist.)

Proc. styloideus

Tuber olecrani

Proc. anconeus, Incisura trochlearis

Corpus ulnae (*interspec. diff.*)

Spatium interosseum antebrachii prox. + dist. (*interpsec. diff.*)

lat/med, L/R?

- Tub. radii
- Sulcus tendinis m. abductor digiti I. longus
- Tuber olecrani
- Corpus ulnae

Carpus

prox. = antebrach. row

Os carpi radiale, intermed., ulnare

dist. = metacarp. row

Os carpale primum – Os carpale quartum + quintum

+ Os carpi accessorium (caudolat.)

Metacarpus

Basis (prox.), Corpus, Caput (dist.)

Eq: Tuberositas ossis Mc3 (prox., dorsomed.)

Condylus, Crista sagitalis: med. > lat.

Phalanx prox., Phalanx I., Os compedale

Basis (prox.), Corpus, Caput (dist.)

Trigonum (palm., Apex: dist.)

Phalanx medii, Phalanx II., Os coronale

Basis (prox.), Corpus, Caput (dist.)

Tuberositas flexoria (palm., prox.)

Phalanx dist., Phalanx III., Os unguare

Facies articularis

Facies parietalis (lat. – med. diff.)

Facies solearis (dors.: Planum cutaneum, palm.: Facies flexoria)

Proc. extensorius (dors., prox.)

Procc. palmaris lat. + med.
